Paloma Valley High School Student Arrested

Menifee, CA – While on campus at Paloma Valley High School, the assigned Menifee Police Department School Resource Officer was made aware of a student who made threats towards other students at the school.

Following a prompt investigation including a search of the suspect's residence, the School Resource Officer arrested the accused student for making Criminal Threats. Although the suspect did not have immediate access to firearms, the threats were deemed credible. The student was subsequently transported for booking at Southwest Juvenile Hall in Riverside County.

The identity of the suspect is being withheld due to the suspect being a minor.

We would like to take this time to remind the public we take all threats to public safety seriously. The Menifee Police Department is committed to working closely with school administrators to ensure students have a safe place to learn and grow.
