## ARRESTS MADE FOR FIREARM CHARGES

**Menifee, CA** – On Monday, February 10, 2025, at approximately 11:42 AM, the Menifee Police Department responded to reports of a subject who exited a vehicle and fired several rounds towards the hills north of the Valley Boulevard and McCall Boulevard intersection. Upon arrival, officers located several bullet casings and Star 9 assisted in an area search; however, no suspects or victims were located.

At about 4:17 PM., members of the Menifee Police Special Enforcement Team located two males and a vehicle matching the description provided by the original reporting party. When officers initiated a traffic stop, the front passenger exited the vehicle and fled on foot, prompting a pursuit.

During the pursuit, the suspect dropped a loaded 9mm handgun before being apprehended. A subsequent search of the vehicle uncovered a magazine and a 50-round drum. Both the driver and passenger of the vehicle were arrested on multiple firearm-related charges.

A test fire of the recovered weapon using the National Integrated Ballistic Information Network allowed our officers to make a presumptive match to the firearm from the initial shots fired incident.
